“

“Forget about what you guys are going to offer. Tell me how I can help you in this transitionary phase. I bet on you guys when you had no track record. It is because I could sense that you guys are genuine, transparent, and full of integrity. I do not need any more validation. Wish you all the best.”

“Since you down-sold yourself so much, mentally, I had settled for a much lower return with your stock SIP advisory portfolio. I never thought the investment returns would be so decent.”
